Re: *State of Oklahoma v. Tyson et al.*, No. 05-CV-0329-GKF-SAJ

Dear Michael:

Pursuant to the Court's order of January 5, 2007 (Dkt. 1016), and without waiving our objections, we are today FedExing to you STOK-CD100, along with an index of the data being produced.

Included in this production is a final EML report, along with preliminary data from Aquatic Research and A&L Labs. The production of this preliminary data is being expedited pursuant to the Defendants' request and the Court's Order (Dkt. 1710). It is important to understand that in order to expedite the production of this data, we have not been able to complete our internal QA/QC process this data. When that review is completed, we will supplement the production.

The USGS data has been provided in electronic format on the CD, as well as in bates-numbered .tif format.

Also included in this production are sampling photos and related field book, along with chain of custody records.

Should you have any questions concerning this production, please do not hesitate to call.

Sincerely,

Louis W. Bullock
